1. Event Summary

Conference Name: 2nd International Conference on New Achievements in Multidisciplinary Research (ICNAMR – 2021)

Date: 29th – 30th May, 2021

Conference Theme: Bringing engineering, technology and science research areas synchronically on an indivisible platform.

Auspice Organizations: Sri Krishna Arts and Science College (SKASC)

Mode/Place: Virtual Conference

No of Delegates: 105

1.1 OVERVIEW

The conference “2nd International Conference on New Achievements in Multidisciplinary Research (ICNAMR – 2021)” to be organized by Sri Krishna Arts and Science College (SKASC) is intended to provide a prestigious platform for Entrepreneurs, Policymakers, Regulators from the Government departments, Consultants, Academicians, Scientists from R&D Institutions, Research Scholars, Students, and Corporate Practitioners from all across the globe. The primary aim of the conference is to enable the above-mentioned stakeholders to reflect, deliberate, and suggest necessary and desired measures in the present business scenario.

1.2 Conference Theme

The theme of this conference revolves around bringing engineering, technology and science research areas synchronically on an indivisible platform. This conference will draw collectively research fellowships from diverse fields in unitedness, to share their research findings and latest ideas. The main intention of this conference is to integrate interdisciplinary inquiry to deliver the best applications.

2. ABOUT THE CONFERENCE

The objective of ICNAMR-2021 is to present the latest research and results of scientists (preferred students, post graduate Students, Research Scholars and post-doc scientists) related to Electrical, Electronics & Communication Engineering and Computer Science & Engineering. The conference will feature traditional paper presentations as well as keynote speeches by prominent speakers who will focus on related state-of-the-art technologies in the areas of the conference.

Now-a-days the academia and researchers are not only pondering but also experiencing the overwhelming outcomes of interdisciplinary researches. Moreover, it has been ubiquitously encouraged by the governments, research agencies and by the academic institutions. The intent behind the multidisciplinary international conference is to provide a common platform, where academia, delegates from industry and nominees from various Government and Private Universities and Institutions can sit together, and cherish about achievements so far, as well as deliberate upon futuristic approaches along with major bottlenecks. The deliberations will not only encompass all avenues of electrical, electronics, computer science and information technology but also through spotlight on positive and inadvertent impact of modern technologies on society.

ICNAMR-2021 is an instructive event structured with a stimulus to afford an excellent international offer for the professionals to intermingle with global speakers and academicians. The aim of ICNAMR is to assemble scholars from all over the world to present advances in the appropriate fields and to foster an environment conducive to exchanging ideas and information. Electrical and electronics engineering from strength production via electrical equipment to wireless communication and robots has a major effect on societal development. This improvement calls for greatly skilled engineers with specialized know-how in one of the many disciplines of electrical engineering.

This conference in Sri Krishna Arts and Science College will also present an ideal environment to extend new collaborations and gather experts on the fundamentals, applications, and products of the mentioned domain of Computer Science, Information Technology, Electrical, Electronics and Communication Engineering with valuable discussions in order to make the outcomes more realistic.

3. CONFERENCE SCOPE & BENEFITS

STUDENT:

- ICNAMR 2021 will be a perfect platform for Students to express their innovative thoughts and unique research work at a global platform.
- ICNAMR 2021 will provide scopes to Students to meet and interact with International Speakers and Scientists of National importance. Students can interact with session chairs related and working on relevant fields of their research.

07	Cloud Computing Model For Vehicular Ad Hoc Networks Presented by Dinesh s
08	Survey On Brain Computer Interface Presented by Bharathi Nandhan P
09	Authentication Using Single Sign-On(Sso) Presented by Akshatha R
10	A Survey On Various Techniques For Big Data Recommendation System Presented by M.Kavitha
11	Mutual Informative Brown Clustering Based Multiattribute Cockroach Swarm Optimization For Reliable Data Dissemination In Vanet Presented by D.Radhika
12	A Survey Paper On Cloud Computing Presented by Dr. S. Subbaiah
13	ADISAL – RIGHT APP WITH VISION FOR RIGHT PEOPLE Presented by Karthick

7.8. Technical Session-II(B)-2

Day 1 (29-05-2021)
Technical Session-II(B)-2
(CSE & IT)

1	Mannequins Supporting Social Distancing Presented by HARIPRIYA A
2	Disparity Of Single And Multi-Clouds In Cloud Computing Security Presented by Dr. J. Gowri
3	Machine Learning In Bio Information Presented by Bhavasree
4	A Survey On Big Data Analytics: Challenges, Open Research Issues And Tools Presented by Dr C Sunitha
5	A Study On Artificial Intelligence: Challenges, Approaches And Applications Presented by Dr C Sunitha

6	A Study On Graphic Design Principles And Techniques Presented by Dr C Sunitha
7	Novel Method For Indian Vechile Licence Plate Detection Using Image Segmentation And Neural Network Presented by Dr. N.A. Sheela Selvakumari
8	Fog Computing Architecture For Autonomous Transportation Of Cloud Of Things Presented by Dr. N.A. Sheela Selvakumari
9	A Study On Cancer Disease Prediction Using Data Mining Techniques Presented by Ranjitha.C
10	Machine Learning In Bioinformatics Presented by R. GOWTHAM
11	Impact of MI & Ai On Cyber Security And Safeguarding Cyberworld Presented by R. GOWTHAM
12	Machine Learning in Bioinformatics Presented by M.Nalina priya
13	Non-Contact Sanitizer and Monitoring System Using Arduino Presented by S.Lavanya

7.9. Technical Session-II(C)

Day 1 (29-05-2021)

Technical Session-II(C)

(Mathematics)

1	A STATISTICAL STUDY ON STUDENT'S SOCIAL MEDIA USAGE AND IT'S IMPACT ON THEIR SOCIAL LIFE Presented by AMBIKA S
2	Cytological studies for some taxa of families Alismataceae Vent., Araceae Juss. and Butomaceae Mirb. from Kangra valley (H.P.) and Kashmir region (J & K). Presented by Harpreet Kaur
3	A Study on Application of Mathematics in Image Processing Presented by Sowmiya V
4	RUBIK's CUBE AND APPLICATION IN MECHANISM. Presented by VIDHYA.S
5	Mathematics in Ancient Egypt Presented by Virbhula remy J
6	STABILITY RESULT ON BOOLEAN NETWORKS SUFFERED BY IMPULSES Presented by JEBASTIN
7	Drug Administration and Application of Calculus in Biology Presented by Shivani B
8	Calculus in Python with SymPy – Limits, Derivatives, and Integration Presented by Varshna.K.B
9	Intuitionistic fuzzy euler and intuitionistic fuzzy hamiltonian graph

	Presented by R Buvaneswari
10	Fractal dimension and it's application Presented by Reena.
11	Study on second law analysis in a slab with an internal heat generation Presented by R Vaishnavi
12	Calculus in credit card Presented by Dharani. M
13	The impacts of statistics on data science Presented by Saravanan S.
14	MATHEMATICS IN DETECTING THE MASS AND DISTANCE OF AN UNKNOWN CELESTIAL BODY Presented by Sri Ranjani.S

10. FEEDBACK

Participants Feedbacks:

1. Aspects of the conference were of more value given to participants:

- Speakers
- Research aspect
- All the participants had explained well about their presentation.
- Judges
- Satisfaction of the customer, society
- Topics taken for conference by presenters
- Question and answer session.
- All the paper presenter's session is more valuable which gave me the motivation and excitement to learn more.
- THE DIFFERENT TOPICS RELATED TO MY PAPER NEW TERMS HAVE BEEN KNOWN THROUGH THIS CONFERENCE.
- After attending the conference, I got some useful and informative ideas about stock markets, tax and also how things have changed in this pandemic situation in all the fields. This section gives a clarity about commerce topics.
- Different topics related computer science field is useful
- the effective interaction platform
- Engage in high-level debates
- Multidisciplinary research
- to know about business industry filed and gained more knowledge and i hope

it will be helpful for my career

- It helps me to experience a lot of knowledge gaining hour on various topics by different people
- Listening to all the participants view on their own topic helped us to know something about everything

12.CONCLUSION SUMMARY

ICNAMR-2021 was a success event organized by IFERP amid the COVID19 with a collective effort from host organization, Organization committee members and all participants. The **“2nd International Conference on New Achievements in Multidisciplinary Research (ICNAMR – 2021)”** was a notable event which brings Academia, Researchers, Engineers, Industry experts and Students together.

The purpose of this conference was to discuss applications and development in area of **“Engineering, Science & Management Studies”**. This study aimed to determine the effectiveness of understanding the self to the freshmen students of selected colleges. The data were analyzed and interpreted through the use of percentage and standard deviation. The purpose of this study aimed in this conference was to determine the social responsibility practices and the significant difference in the small and medium enterprises (SMEs). The enterprises were grouped by classifications, business organizations, and business types. And this study recommends that small and medium enterprises should integrate social responsibility in all phases of their business operation that will improve the quality of life of the workforce and their families, the welfare of the community, and the well-being of society. This phenomenological conference also intends to capture and articulate with the experiences in leadership and management as they are to achieve success and provide global class education for their clients.

At a practical level, the theme and aim of this conference provides valuable resource to assist aspiring people more proficient in leading and managing as well as the available resources as academic bureaucrat. Finally, the findings of this study could potentially serve as knowledge-avenue for college deans and directors, research scholars, industry experts and students in choosing and to develop academic leaders’ competencies and skills in decision making.

About Conference

The objective of ICNAMR-2021 is to present the latest research and results of scientists (preferred students, post graduate Students, Research Scholars and post-doc scientists) related to Electrical, Electronics & Communication Engineering and Computer Science & Engineering. The conference will feature traditional paper presentations as well as keynote speeches by prominent speakers who will focus on related state-of-the-art technologies in the areas of the conference.

Now-a-days the academia and researchers are not only pondering but also experiencing the overwhelming outcomes of interdisciplinary researches. Moreover, it has been ubiquitously encouraged by the governments, research agencies and by the academic institutions. The intent behind the multidisciplinary international conference is to provide a common platform, where academia, delegates from industry and nominees from various Government and Private Universities and Institutions can sit together, and cherish about achievements so far, as well as deliberate upon futuristic approaches along with major bottlenecks. The deliberations will not only encompass all avenues of electrical, electronics, computer science and information technology but also through spotlight on positive and inadvertent impact of modern technologies on society.
