About ICTEMR Conference:

2nd International Conference on Technology Innovative Educational and Multidisciplinary skills in the 21st century research” (ICTEMR_2022), which is scheduled to take place on the 08th and 09th of January, 2022 to be held in Institute Innovation Technology Educational and Research for Eastern Institute of Technology Suvarnabhumi (EITS) in Association with IFERP will focus on establishing the bar for effective future inclinations. The international conference has been specifically designed with the intention of delivering outstanding outcomes and challenges in the 21st Century. It intends to bring collectively researchers, scientists, technicians and scholars in all fields of educational research for the propagation of original research conclusions, new approaches and developmental practices that yield real results

Participants will be afforded the incredible chance to interact with leading experts from their respective fields, taking the opportunity to draw everyone commonly in a panel and to bestow their plans in different countries.

ICTEMR-22 strives to join the gap among researchers and academics in various domains, and this type of long-term imagination has resulted in the launching of this incredible and unique initiative involving experts from all fields. ICTEMR - 2022 is organized especially to furnish delegates with hard-to-find knowledge and expertise that they will find nowhere else.

Message from Director, Institute Innovation Technology Educational and Research for Eastern Institute of Technology Suvarnabhumi (EITS)

Asst. Prof. Dr. Phumphakhawat Phumphongkhasorn
Director, EITS

On behalf of The 2nd International Conference on Technology Innovative Educational and Multidisciplinary skills in the 21st century research”(ICTEMR_2022) organizing team, I am honored and delighted to welcome you to The 2nd International Conference on Technology Innovative Educational and Multidisciplinary skills in the 21st century research”(ICTEMR_2022) to be held on 08-09 January 2022 at Institute Innovation Technology Educational and Research for Eastern Institute of Technology Suvarnabhumi (EITS) with Institute For Engineering Research and Publication (IFERP).

Any conference is intended for discussing lively and emerging issues of a particular educational domain and disseminating the awareness among other researchers and scholars. We have been witnessing the dramatic improvements in the field of Education and Multidisciplinary Technologies and applications. I hope 2nd International Conference on Technology Innovative Educational and Multidisciplinary skills in the 21st century research”(ICTEMR_2022) will become surely the most important International event and bring out latest trends in Multidisciplinary and Educational Innovation.

In order to provide an outstanding research level for the presentations at the conference, we have invited distinguished experts to participate in the program. We will have, plenary sessions by keynote speakers during 2 days of conference including the awards presentation during the closing session on the last day of the conference.

I hope the 21st century research”2nd International Conference on Technology Innovative Educational and Multidisciplinary skills in the 21st century research”(ICTEMR_2022) will make you to reflect yourself with state-of-the art and provide opportunity to discuss various educational issues and challenges including other sciences with multidisciplinary aspects.

Contemplative Education

- Contemplative education is a study of inner temperament learning with the experience of awareness such as feeling, thoughts, belief, and attitude through the awareness observation. The main concept of the contemplative study is to create normality in the human mind, which can be generated the stability of mind and action when the human encounters either positive or negative situations.
- Contemplative education known as in Thai term "Jitta Panya Sukaar" is a term referring to learning with a thoughtful mind. This learning reflects the process of dynamic, creativity, and imaginary in human mind which lead to the raise of in-depth questions about educational system.
